

## **Needed Instrument Accessories** **8<sup>th</sup> Grade Band Students**

Students will need to make sure to have each of these items either for class or to properly maintain their instruments. Many of the accessories were also used in beginning band, and students may already have some of these items (other than consumables such as valve oil and reeds).

All students need a folding music stand to use for practice at home.

It is strongly recommended that all students have a metronome and tuner, or an app that will provide the same functions.

Students need Sound Innovations Book 2 and Foundations for Superior Performance
