

Dear Moore Public Schools Community,

Please be advised of Moore Public Schools (MPS) safety precaution updates and reminders in response to the Coronavirus Disease 2019 (COVID-19). At this time, we have not been made aware of any confirmed cases of COVID-19 within the Moore community. These precautions are a focused effort to help prevent the potential spread of the virus.

1. **If any of our MPS community members have recently traveled or intend to travel to Level 2 or Level 3 countries and/or participate in cruise ship travel, then those individuals shall self-quarantine from our schools for 14 days upon return to the United States.** For the updated list of Level 2 and Level 3 countries, as determined by the Centers for Disease Control and Prevention (CDC): <https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html>). The CDC information and list update frequently, check often.
2. **If a staff member or student has been exposed to COVID-19, these individuals shall self-quarantine from our schools for 14 days.** Those individuals need to contact the Cleveland County Health Department at (405) 794-1591, and family physician. Regarding absences and leave, students and staff will be addressed on a case-by-case basis.  
*This is a frequently asked question with answer regarding exposure.*  
Q: If a member of my household has been exposed to COVID-19 (we do not know if they have contracted the virus) and we remain residing in the house, do I self-quarantine from MPS for 14 days?  
A: Currently, the answer is yes.
3. Beginning today, Friday, March 13, at 12 p.m. through Sunday, March 22, 2020 – all practices, trips, and district activities and events are cancelled in MPS. For additional clarification, no mandatory or non-mandatory activities sponsored by a school, organization, and/or program in association with MPS will occur within or outside of our schools and facilities. A decision will be shared soon regarding in-state and out-of-state travel, and activities that would occur after March 22.

The CDC has advised that if an individual who is exposed to the virus then contracts it, symptoms show within 2-14 days. The symptoms include - fever of 100.0 degrees or higher, shortness of breath, and cough. For more information: <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.

**The health and safety of our students, staff, and families are of utmost importance.** MPS Administration will remain attentive to CDC updates and advisement from local, state, and federal officials. We will send additional information as it is available and needed.

Sincerely,

Dr. Robert Romines  
Superintendent of Moore Public Schools
